

NEXUS AI

One Platform. Infinite  
Intelligence.

# The Problem: India's AI Fragmentation Crisis

Every domain has its own app. Every app has its own language. Every citizen is left navigating alone.

## Education

No unified study assistant

## Career

Scattered job platforms

## Healthcare

No reliable AI guidance

## Cybersecurity

Zero scam protection tools

## Agriculture

Farmers lack AI advisory

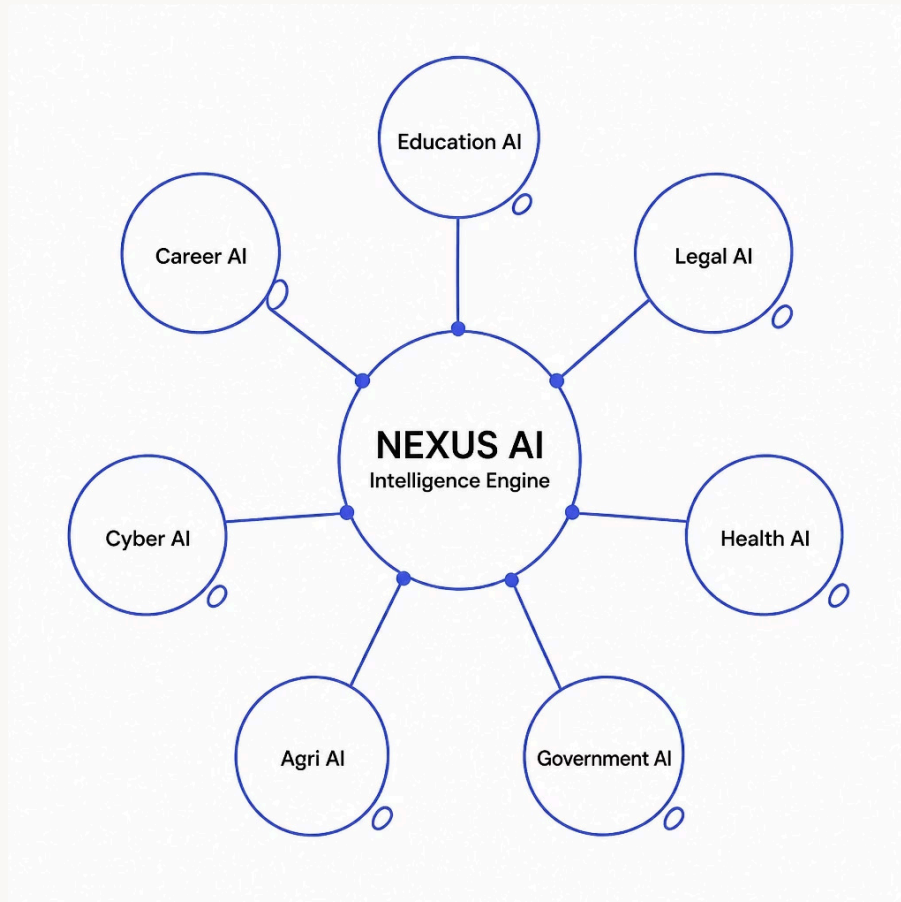

## Gov Services

Complex, inaccessible portals

# Our Solution: Ask Once. Get the Right AI.

NEXUS AI is a single intelligent platform that understands your intent and routes every question to the most capable specialized AI assistant — instantly, in your language.

## One Entry Point

Type, speak, or upload — NEXUS handles the rest.

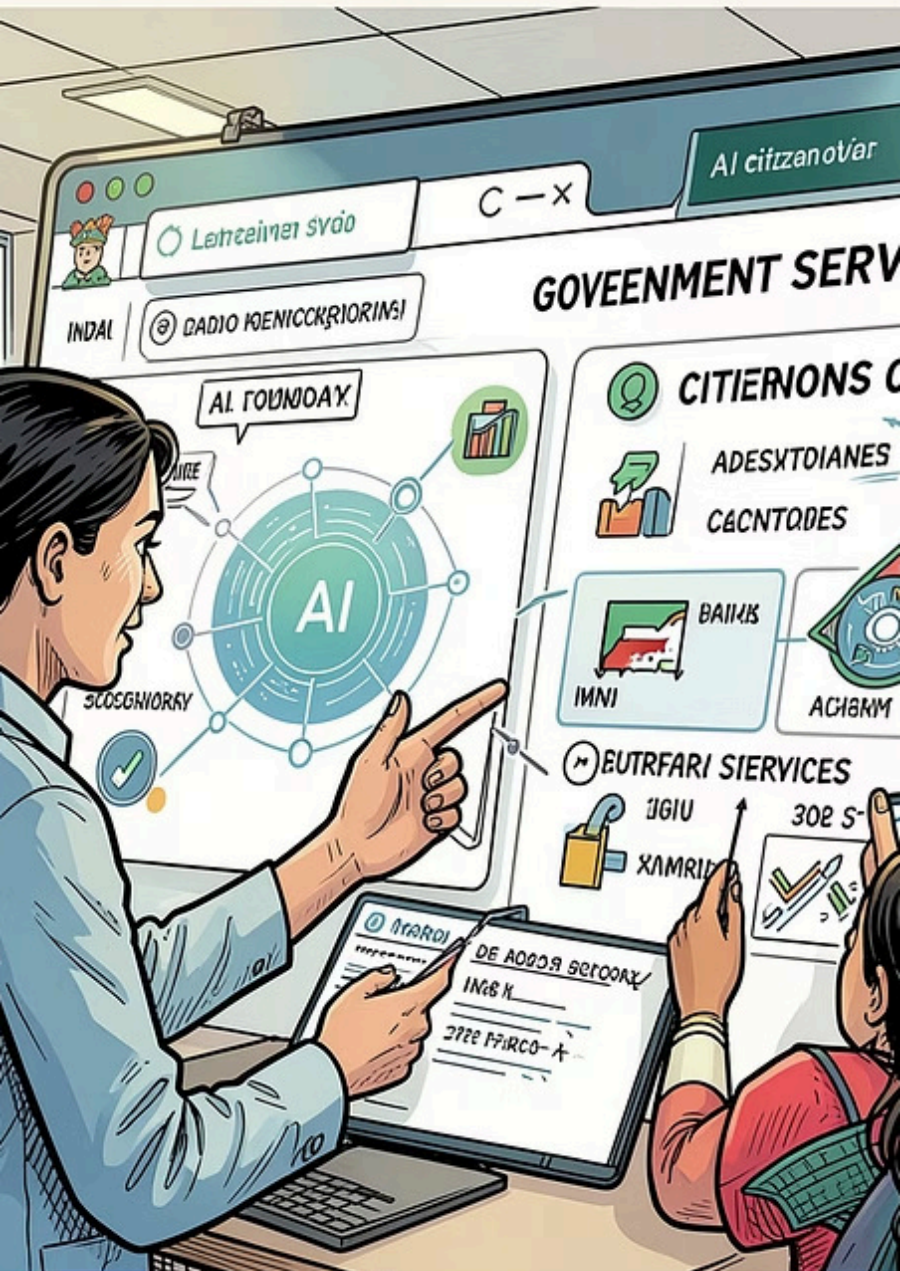

## Intent-Aware Routing

Proprietary AI engine detects context and routes to the right expert.

## Multilingual by Design

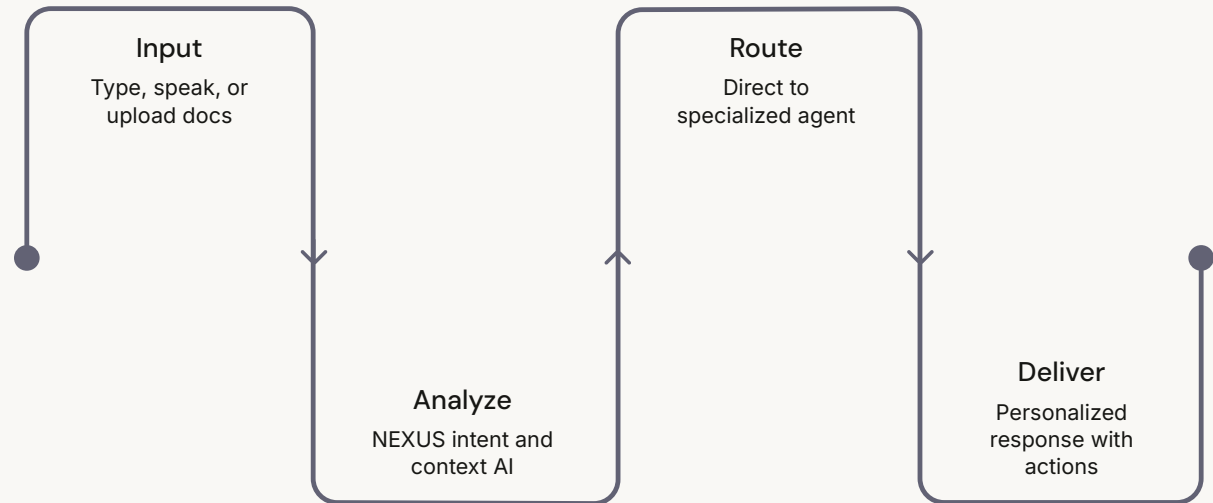

Supports all 22 Indian official languages from day one.

# How NEXUS AI Works

From a single question to an intelligent, personalized response — in seconds.

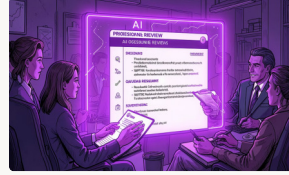

NEXUS AI supports voice input, OCR document scanning, multilingual text, and deep document understanding — making it accessible to every Indian, regardless of device or literacy level.

# Eight Specialized AI Agents

## Legal AI

Explain laws, generate documents, citizen guidance

## Cyber AI

Scam detection, phishing alerts, password security

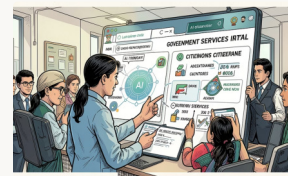

## Health AI

Wellness guidance, symptom education, medicine reminders

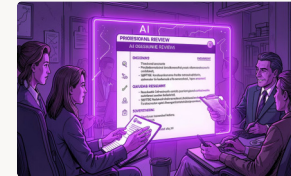

## Agri AI

Crop advice, pest detection, weather recommendations

## Government AI

Schemes, required documents, citizen services

## Financial AI

Budget planning, saving goals, tax assistance, Emergency fund planning

# Key AI Features

## Conversational AI

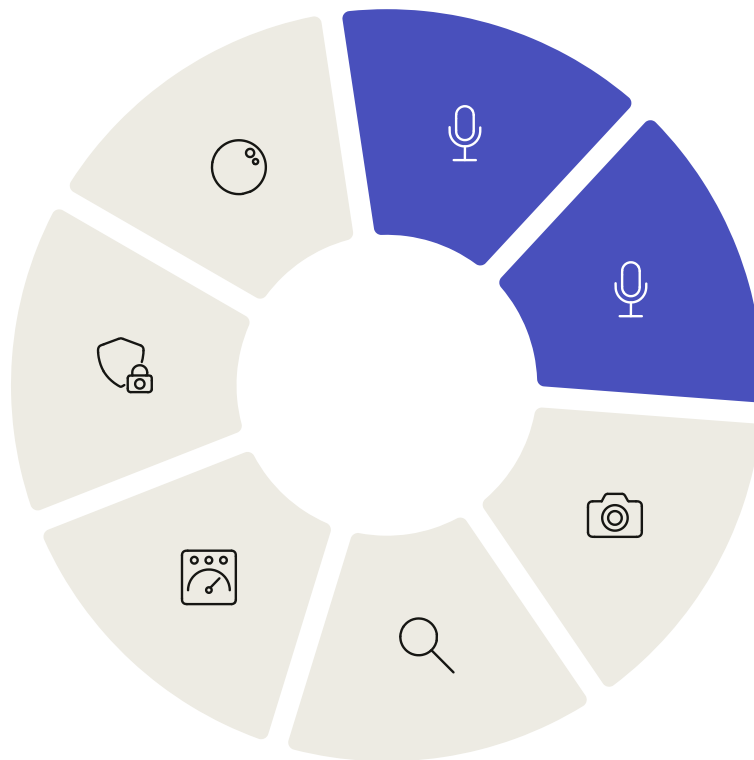

Natural language understanding  
across all domains

## Secure & Private

Enterprise-grade authentication with  
privacy-first architecture

## Personalized Dashboard

AI-curated insights,  
recommendations, and history

## Voice Assistant

Speak naturally — supports all  
regional Indian languages

## Voice Assistant

Speak naturally — supports all  
regional Indian languages

## OCR & Document AI

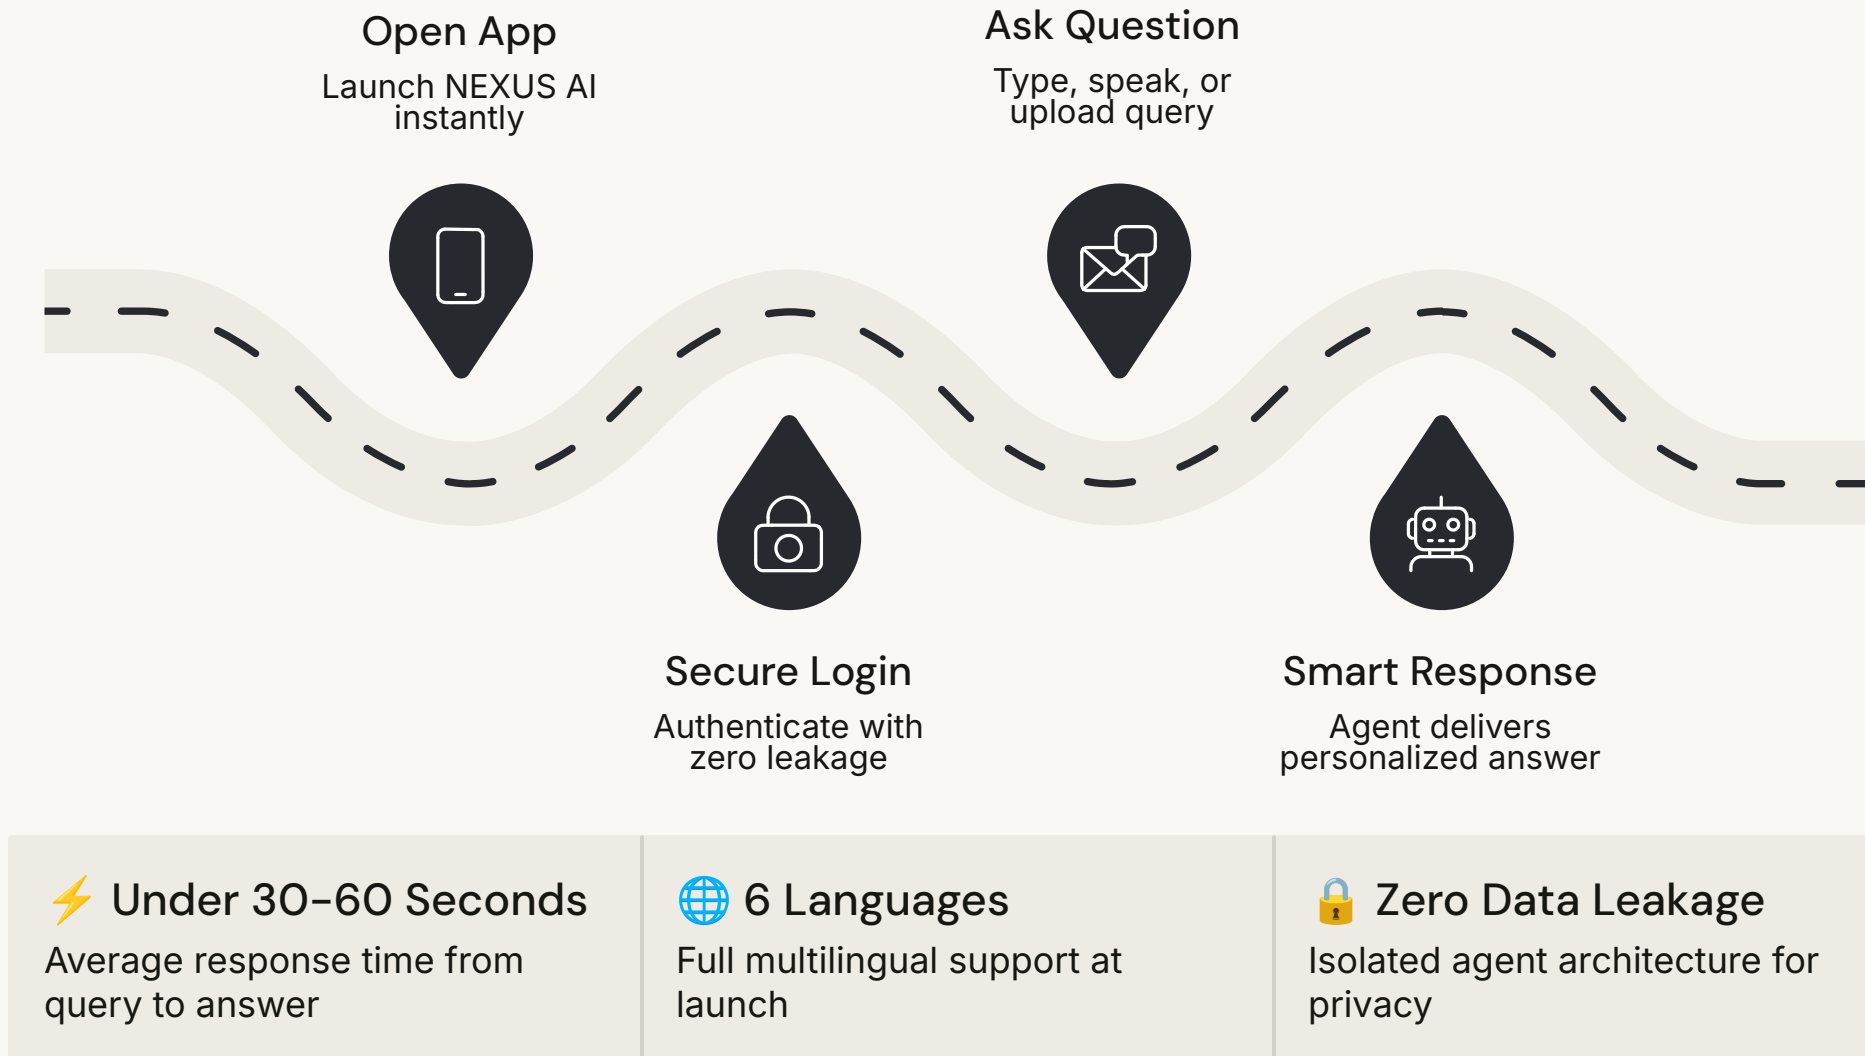

Upload any document for instant  
summarization and extraction

## Smart Search

Intent-aware search across all seven  
AI domains

# Seamless User Journey

Every interaction is designed to be frictionless — from first login to intelligent action.

# Technology Architecture

NEXUS AI is built on a modern, cloud-native stack designed for scale, security, and seamless AI integration.

## Frontend

React + Tailwind CSS — glassmorphism UI, responsive design

## Backend

Node.js + Express — RESTful API with real-time capabilities

## AI Layer

OpenAI API / Open-Source LLM + RAG + Vector DB + Intent Router

## Infrastructure

PostgreSQL, Firebase Auth, Cloudinary, Vercel / Railway
