

Machine Learning Tutorial

Step-by-Step ZERO to HERO

This document contains all the resources required to practice the Machine Learning tutorial shared in the session/video. These materials are beginner-friendly and suitable for college projects.

Instructions

- Please follow the resources in the given order.
- Make a copy of the Google Colab notebook before editing.
- Download the dataset and keep it in the same working folder.
- Use this project as a reference for learning or college mini/final year projects.

Machine Learning Resources

1) Code (Google Colab)

<https://colab.research.google.com/drive/1pzM8BLy6YxN0bpuLJzvb35iztN7kPbnK>

Instruction: File → Save a copy in Drive

2) Dataset
